AMS president 'energized' by large student vote

AMS executive, from left, Mike Peterson, vice-president programs, president Keshvani, Len Molden, vice-president services, and Michelle AuCoin, vice-president finance.

Rosemin Keshvani, the new president of the Alma Mater Society (AMS), feels that the student government has been "energized" by the size of the turnout in the Oct. 10 by-election.

More than 1,500 students cast ballots in the by-election which saw Keshvani finish first by more than 400 votes in a three-person race for the AMS presidency.

Students also assured the future of the B.C. Public Interest Research Group (BCPIRG) on campus by voting 1026 to 442 to continue funding the organization.

About 15 per cent of students voted in the election. "This is high for a by-election, particularly for the AMS," she says.

"It's a good sign that students are not apathetic about student politics," she says. "I believe we can defeat student apathy by demonstrating that the AMS is a responsible body with something to offer students."

"We can also combat apathy by promoting as many subsidiary clubs and activities as possible, by trying to cater to the needs of students."

Keshvani is a novice student politician, but has been active as a president of the philosophy student course union, a researcher and member of the Vancouver Island Human Rights Coalition

and an active member of the Alliance to Defend Education.

She is a fifth-year Arts and Science student who will graduate in November, but plans to take a course beginning in January of 1985.

Keshvani feels that the perception of student government has been declining over the years and that the challenge facing student governors is to change that perception.

"It is a crucial time in the history of B.C., with society questioning the role of students and universities and the government questioning the funding of universities."

"It is time students rose to that challenge, not by employing radical measures but by working on co-operative kinds of relationships."

Keshvani said she was encouraged to run for president by the example of Brian Stevenson, the AMS president for 1983-84. "If you have a good president, respected by the university administrators and faculty members, it sets a good example for others to follow. And Brian did get things done."

The fact that she is new to the executive of the AMS is probably a good thing, says Keshvani, since she is removed from the controversy that surrounded the

resignation in mid-term of her predecessor Joanne Howard. "As far as I'm concerned, the past is past, and we have only six months in which to accomplish a great deal."

"I intend to work twice as hard to ensure that at least some of the campaign promises I made are kept."

The AMS president says the chief priorities in the coming year are the accessibility of education and the maintenance of the university.

She believes that a revised work-study program, more accessible to students, is one answer to the financial difficulties faced by today's students.

"We hear the complaint that the students are always looking for handouts, but that is just not the case. Students want to work but the employment has to be there. With a more enriched work-study program, with the private sector involved, students might be able to find jobs to pay for their education."

Keshvani hopes to pressure Secretary of State Walter McLean to inquire into direct federal funding for universities.

The AMS has organized a letter-writing campaign for Oct. 24, A Day of Concern for Higher Education. Students will be asked to write letters to the provincial government and McLean, with tables set up at several locations on campus.

Famous Trio plays here

The world-renowned Trio di Milano is featured in a special recital presented by the School of Music at 8 p.m. Oct. 31, in the Recital Hall of the Music Building.

The trio was formed in the spring of 1968 by three noted artists, all teachers at the Milan Conservatory: pianist Bruno Canino, violinist Cesare Ferraresi, and cellist Rocco Filippini.

The trio has played regularly for the most important concert societies and with major orchestras of Italy as well as in the principal European cities: Vienna (Konzerthaus), Berlin (Philharmonie), Munich (Residenz), Milan (Teatro alla Scala), at the festivals of Edinburgh, Stresa, Sofia, Bratislava, Prague, Geneva, Warsaw, Zurich, Basel, Madrid, Lisbon, and many others.

After the tragic and untimely death of Cesare Ferraresi early in 1981, his lifelong friend Angelo Stefanato joined the trio as his successor, fulfilling one of Ferraresi's last wishes. The trio's repertoire includes the most important classic and romantic compositions and also contemporary works, some of these composed expressly for the ensemble.

For their concert in Victoria, the Trio will perform Beethoven's *Trio in G Major, Op. 121s* ("Kakadu Variations"), *Trio in A minor*, by Maurice Ravel, and Schumann's *Trio in D minor, Op. 63*.

Tickets, at \$5 for adults and \$3 for students, senior citizens, and the disabled, can be purchased from the School of Music from 8:30 a.m. to 4:30 p.m. weekdays, and the University Centre Box Office.

Strong winds of last week tore this branch from a tree in the quadrangle, near the Cunningham

UVic matches \$500,000 award

UVic will match a \$500,000 award from the federal government for the establishment of two chairs in International Commercial Law and Asia Pacific Studies.

The Secretary of State, through its Centres of Specialization Fund, announced in September that it would provide \$500,000 for the establishment of the two chairs at UVic.

One of the conditions of the award is that the university is required to provide matching funds. The Board of Governors, at the Oct. 15 meeting, decided to provide the funds from interest income generated above the

amount estimated in the 1984-85 budget, with the addition of carry-over funds saved from operating budgets of previous years, if necessary.

At the time of preparation of the 1984-85 budget, interest rates had fallen substantially. Since then, interest rates have risen, with the result that interest income will be much greater than the budget estimate.

In addition to the federal funds and the UVic contribution, endowment funds for the two UVic chairs are being sought from the provincial government and the private sector.

Top student scholars will have their night

Brian Smith, Attorney-General of British Columbia, is the guest speaker at a recognition ceremony Oct. 24, as UVic honors its top academic achievers of 1983-84.

About 1,000 winners of UVic-administered awards have been invited to the ceremony in the University Centre Auditorium, along with donors of scholarships and awards.

The top 50 winners will be presented with their awards on stage as will the top entrance scholarship winners, while other award winners will receive their certificates prior to the ceremony.

An unveiling ceremony will also be held during the evening. The unveiling of a large portrait of Queen Victoria, a gift to the university from the University of Cambridge, will be made by Geoffrey Skelsey, assistant to the Vice-Chancellor of Cambridge.

The eight-by-six-foot portrait of Queen Victoria at 22 years of age, is one of a number of copies of the great state portrait of the queen by court painter F.X. Winterhalter, painted in 1842.

The original portrait is in the Royal Collection at Windsor Castle.

They'll talk about Popeye and Conan

Popeye, Louis Armstrong, Conan the Barbarian and popular theatre and film all will be the subjects of a five-part monthly lecture series on the popular arts to be presented Wednesday noon hours at UVic this year.

The lectures on popular art forms that demonstrate major 20th Century cultural concerns are being sponsored by the UVic Faculty of Fine Arts, and are open to the public.

Lectures, speakers and dates are:

"What is Popular Theatre?" the inaugural professorial lecture by Michael Booth, new chairman of the Theatre Department, on Oct. 24.

"Popeye and North American

Culture Heroes" presented by Dr. Alan Gowans of the Department of History in Art, Nov. 28.

"The Hidden Message in Popular Film" by Barrie A. McLean, film maker and lecturer in the Departments of Creative Writing and History in Art, Jan. 23.

"Louis Armstrong in his Hot Twenties" presented by Dr. Philip Young of the UVic School of Music, Feb. 27.

"Conan the Barbarian" presented by W.D. Valgardson, author, essayist and chairman of the Department of Creative Writing, March 20.

Each lecture in the monthly series will be held between 12:30 to 1:30 p.m. in the Student Union Building Theatre.

Fraser attends Ottawa conference

Prof. Murray Fraser, Vice-President Academic, will be in Ottawa during the week of Oct. 22 to participate in the Tenth Anniversary Conference of The Canadian Institute for the Administra-

tion of Justice.

The theme of the conference is the relationship between the individual, the state and the justice system.

Fraser will present a paper and take part in a panel discussion on "The Rights of Families" in which consideration will be given to the impact of changing social attitudes and structures on the rights of children, spouses and the state in family law matters.

Fraser will be participating with Madam Justice Bertha Wilson of the Supreme Court of Canada, Professor Margarit Eichler of the Department of Sociology of the University of Toronto, and Chief Judge Andrews of the Ontario Family Court.

At the conclusion of the conference, Fraser will represent UVic at the Installation of Dr. David Smith as Principal of Queen's University in Kingston.

Ferra: NSERC scholar wins top prize for paper

She didn't listen when they told her 'girls are not supposed to be good at math'

Story and Photo by Donna Danylchuk

Micaela Ferra, UVic computer science doctoral student, has received the award for top student paper presented in Edmonton this month at VLSI '84, a major national conference on the design and manufacturing of advanced high technology "chips".

The University of Alberta was host of the conference, which was attended by electrical engineers, computer scientists and other VLSI experts from across North America.

Ferra conducted the research for her award winning paper, on improved methods for designing circuits, at UVic last year. The paper fulfilled the thesis requirements for her Master of Science degree, which she completed under the supervision of Dr. Jon Muzio, chairman of the UVic Computer Science Department.

The paper was one of 20 accepted from students across the country for judging at the conference. The amount of the award is \$500.

Ferra, 31, is currently pursuing doctoral studies in computer science in the field of fault detection, or "the testing of hardware to see if it (the chips) works."

Last year she won a Natural Sciences and Engineering Research Council '67 award, worth \$17,000 each year for four years, to continue graduate work. She received the NSERC '67 award in 1983, when she graduated from the University of Manitoba with the gold medal for top graduating student in the Bachelor of Science program there.

NSERC '67 awards go to outstanding students across Canada with the provision that they continue their graduate work at a university other than that where they complete undergraduate studies.

Faced with the choice of leaving Manitoba to do graduate work either in Canada, the United States or Europe, Ferra says she chose to come to UVic because of the opportunity she would have here to work with Muzio, who conducts research in her field of interest.

"I had heard of Jon Muzio's work and heard that he had come to UVic, so chose to come here basically because of that," says Ferra.

Ferra says she is very satisfied with her choice of university, because of the work she can pursue here and also because of the atmosphere at the graduate level.

"I like the small university. It is very research-oriented, very serious, and quite stimulating. The people you work with really are important. Here it's informal and friendly. We work together and do papers together, and it's possible to sit down and work with our advisors."

Ferra is the single parent of a nine-year old daughter. She came to Canada from Italy in 1974, after studying first-year physics at university in Milan.

To support herself and her daughter in Canada, she worked as a bank teller, a loan officer and then in the law library at the University of Manitoba. She began to complete her undergraduate degree by attending evening classes until "I finally decided to save money and go back full-time."

Ferra says the faculty at the University of Manitoba were "excellent and definitely encouraging" which helped her make her decision to pursue her studies seriously.

When she had first expressed interest in attending the science high school in Italy she had encountered opposition from many quarters, she explains.

"I went to the scientific high school in spite of the attitude there that 'girls are not supposed to be good in math'."

Ferra is doing her doctorate at UVic by special arrangement, and plans to pursue a research-oriented, academic career.

Career Fest offers students a glimpse at future

From Oct. 22 to 26, students will have an opportunity to find out about future employment trends in a wide variety of fields.

Career Fest '84 is a cornucopia of career information, with 55 noon-hour presentations in a variety of campus locations.

The event has been designed to give students an insight into various career opportunities and to assist students to prepare for their careers in a positive and well-informed manner.

Information will include the content of jobs, demands, and rewards. The desired qualifications will also be discussed along with emerging trends. A question and answer period will be part of each session.

Following are the sessions, speakers and locations. All sessions begin at 12:30 p.m.

MONDAY, OCT. 22

Dr. Howard Petch, UVic President, will officially open the Career Fest in Elliott 168. Tom Anderson, personnel representative, Corp. District of Saanich, will discuss, from the employer's perspective, resumes and application letters, the interview, and attitude and deportment in Elliott 168.

Dr. Jon Muzio, chairman of Computer Science, will chair a panel which will look at computer science opportunities. Panel members are J. Mitchell, Digital Equipment Company, C. Slade, B.C. Systems Corporation, and B. Thomson, Computech Consulting Canada Ltd. Organized by the Canadian Information Processing Society (C.I.P.S.) in A134 of the Cornett Building.

Dr. A. Newberry, Executive Director, Field Service, Ministry of Education will speak on the future of teaching in B.C.—trends and opportunities in Begbie 159.

Dr. George Beer of the Physics Department, TRIUMF and C.E.R.N., will speak on opportunities in Nuclear Science in Elliott 162.

Gayle Davies, child care education consultant, Min. of Health, will address the areas of opportunities in Child Care in D111 of MacLaurin.

Dr. P. Mueser, child psychologist, Min. of Health, will examine career opportunities in various clinical psychology areas, including working with troubled adolescents and their families, marriage counselling, and working in Adult Mental Health Centres and homes for disturbed adolescents in Cornett B112.

Dr. Don Eastman, Manager of Resource and Development Section, Wildlife Branch, Min. of Environment will speak on the job opportunities available in both the private and public sector in Cornett A129.

Mr. H. Page, assistant deputy minister, Min. of Universities, Science and Communications, will chair a panel on opportunities in the electrical and computing engineering fields. Members of the panel are Dr. L.T. Bruton, Dean of the Engineering Faculty, F.N. Fenger, consulting electrical engineer, and W. Cooke, Ceastar Instruments Ltd. in Clearihue A106.

TUESDAY, OCT. 23

Dr. G. Puritch, vice-president, Research and Development, Safer-Agro Chem. Ltd. will discuss the emerging field of natural pesticides and the accompanying research opportunities in Elliott 162.

J. Taylor, community school coordinator, Spectrum Community School, will offer students an insight into community education in Elliott 167.

J. Hewitt, counsellor, Small Business Services, Min. of Industry and Small Business will discuss self-employment, small business and new enterprise in Clearihue D131.

D. Chazottes, training and public relations coordinator, Victoria Volunteer Bureau will discuss how volunteer work experience can be a vital step in securing that first career job in Cornett B143.

A. Hamilton, addiction counsellor, director of the Diversion Centre, will discuss "what is addiction? recovery? how can you help? and what are the careers?" in Clearihue A304.

N. Dressler, officer in charge, Victoria Weather Office, will discuss graduate and post-graduate careers in meteorology and related scientific fields along with a brief description of current and emerging technologies in Cunningham 146.

P. McNamara, Director of Child Life Programs at Queen Alexandra Hospital for Children will discuss the opportunities in long-term care facilities in MacLaurin D114.

Ellen Godfrey, president of Press Porcepic and Softwords will discuss the new "skill set" required for many of the jobs of the future, and jobs in publishing and computer-assisted learning, in Clearihue A106.

E. Hofer, sales manager of London Life Insurance, Victoria, will discuss life insurance: its products and services, the role of the marketing representative, selection and training, compensation and advancement, in Clearihue A306.

D. Brummer, operations supervisor, Canada Immigration Centre, Victoria, will discuss the varied aspects of Immigration, in Cornett B343.

Prof. George Corwin of the School of Music, will discuss the opportunities open to professional musicians, in MacLaurin A169.

Ray Clark, CUSO field staff officer in Papua New Guinea, formerly of Nigeria, Zambia and the Caribbean, will discuss how skilled volunteers can contribute to the process of development, in Cornett B112.

Dr. Terry Pearson, of Biochemistry and Microbiology, will examine the new tools for the analysis of biological systems and their impact on our society, and will include information on job opportunities, in Elliott 062.

WEDNESDAY, OCT. 24

Dr. J. Harper, Manager of Geosciences and Hydrography, Dobrocky SEATECH Ltd., an oceanographic consulting firm, will discuss this multi-disciplinary field and special interests in coastal and marine geological sciences. Slide presentation in Elliott 162.

M. Holding, recreation manager, Peninsula Recreation, Sidney, will speak on careers in professional coaching, in aquatic environments, and in recreation centres, in Clearihue A207.

Dr. Joel Newman, UVic counselling psychologist, will provide an insight into counselling as a career, in Clearihue A304.

J. Ballard will draw on his experiences as a teacher for CUSO in Nigeria and as a teacher under contract to the Libyan government to provide students with an insight into teaching in a different culture. Slide presentation in Cornett A221.

H. Williams, a member of the first graduating class of Law at UVic and now an investigator with the Ombudsman of B.C. will chair a panel of members of the Faculty of Law. Frank Orr, Faculty of Law professor after practising as a barrister in the areas of criminal and civil litigation and family law will speak about the role of a barrister; Wylie, who joined the Faculty after practising corporate and commercial law will speak about the role of a solicitor; and Dean Lyman Robinson will speak on the opportunities that exist outside the private practice of law, in Begbie 159.

Dr. D. Crampton, astrophysicist, Dominion Astrophysical Observatory, Victoria, and one of the co-discoverers of two of the three known black holes will describe astronomy as a profession. He will also discuss the current trends in astronomical research, in Elliott 168.

J. Hickey, program and services supervisor, Vancouver Island Regional Correctional Centre will provide an insight into the operation of a Correction Centre and career opportunities. Video presentation in Clearihue C110.

B. Cator, personnel manager, Min. of Industry and Small Business Development, will chair a panel of three senior economists from the Ministry: S. Hollett, director of Sectoral Analysis will speak on research economics; C. Nelson, executive director of Policy and Program Coordination will address the area of applied economics; and Dr. B. Johnson, director of International Economic Trade will discuss the trade and industry side of economics. Topics to include job content and qualifications, in Cornett A129.

J. Arnett, publisher of the Sooke Mirror and formerly a holder of senior positions in the corporate communications and public relations field, will discuss the roles of public relations and press, in Cornett B112.

Kay Collis, art therapist, Victoria Mental Health Centre, will discuss the career opportunities in art therapy. Slide presentation in Clearihue D125.

Kelly Francis, public information officer, Nanaimo Biological Station, will discuss the types of research being done in Fisheries and the career opportunities that exist. Slide presentation in Clearihue A106.

Dr. J.T. Buckley, of Biochemistry and Microbiology, will discuss the opportunities in this expanding field, with some emphasis on the area of nutrition, in Elliott 160.

S. Taylor, Dominion Securities Pitfield, Victoria, will discuss opportunities in the Stock Market and in business generally, in Elliott 167.

Jennifer Elwood, speech and language pathologist, Braefoot Assessment Centre, will discuss the role of the speech and language pathologist, as well as training requirements and other aspects of the profession, in Clearihue A311.

THURSDAY, OCT. 25

Denis Protti, director of the Health Information Science program, will chair a panel that will look at this rapidly growing field which combines computer technology with information systems. Hospital, government, consulting and marketing fields will be discussed by Dr. K.R. Thornton, Royal Jubilee Hospital, W.J. Lawrence, B.C. Min. of Health, R.W. Dietiker, Information Systems Consultant, and Mr. A.J. Fitzpatrick, I.B.M. Canada Ltd., Vancouver, in Clearihue A307.

J. Furlong, manager of Beban Park, Nanaimo, will provide students with an understanding of the diversity and scope of recreation. His presentation will include major event organization, volunteerism, and the expectations of recreation graduates, in Clearihue A106.

R. Pollard, visiting professor, School of Social Work, will discuss how Ministry services are structured, the range of positions available, and other employment details, in Clearihue A306.

Martin Segger, curator and director, Maltwood Museum, will discuss the career opportunities that exist in museums, in Clearihue C115.

Dr. D. Green, Vice-President, Seakem Oceanography Ltd. will provide students with a description of possible career paths in government and industry. Slide presentation, in Elliott 062.

R.F. Quinn, manager, Marine Geophysics, Geotrex Ltd. will use studies in the Beaufort Sea as illustrative examples of exploratory work using geophysics. Visual presentation, in Elliott 061.

Margaret Wilmot, headmistress, Norfolk House, and Mary Alford, supervisor of instruction, Sooke School District, will examine the similarities and differences, the demands and rewards involved in their respective schools, in Begbie 159.

A panel of four staff members of the Pacific Forest Research Centre will examine the opportunities for graduates in the field of Forestry, in Cornett A121.

Joanne Wintjes and Pam McLaughlin, occupational therapists at the Royal Jubilee Hospital, Eric Martin Pavilion, will discuss Occupational

Therapy and its objectives, roles and work settings. Video presentation in MacLaurin D288.

B. Watson, English as a Second Language (E.S.L.) department head, Vancouver Community College, will discuss the opportunities that exist in E.S.L. today, and how to get started in that first job, and other relevant employment information, in Cornett B343.

K. Stubbs, project manager, Environcon Ltd., Environmental Engineering and Ecological Consultants, will discuss opportunities in those fields, in Cornett B112.

Dr. E.E. Ishiguro, of Biochemistry and Microbiology, will describe the scope of microbiology; the training of a microbiologist, and will focus on the contributions of microbiology to our modern world with emphasis on biotechnology, in Cunningham 146.

FRIDAY, OCT. 26

Andy Soles, Deputy Minister, Universities, Science and Communications, will chair a panel which will examine opportunities in the Federal P.S.C., the Provincial P.S.C., and the Capital Region/Municipality Public Sector. The panel members are Hugh Hiscox, regional director of the P.S.C. of Canada, B.C./Yukon region, Al Davies, director of recruitment, Province of B.C., and Don Watson, personnel administrator, Victoria Capital Regional Board, in Begbie 159.

A. Davies, coordinator of teacher personnel, Greater Victoria School Board, will discuss the selection process, focusing on resumes, interview and post-interview considerations, in MacLaurin A144.

M. Doyle, division geophysicist, Dome Petroleum Ltd., Calgary, will discuss employment opportunities in geophysics, geology, computing science and other disciplines. Slide presentation, in Elliott 167.

G. Dunsmore, project leader, Growth and Diversification Group, DOW Chemical Ltd., will discuss the opportunities that are available to chemists with the company. Slide presentation in Elliott 060.

Rod Menzies of the Theatre Department, will moderate a panel on opportunities in theatre. Three members of the Belfry Theatre will participate; Shawn Kerwin, resident designer, Hilary Blackmore, stage manager, and Miles Potter, artistic director, in Roger Bishop Theatre.

K.D. Carnes, Vice-President Marketing, Fording Coal Ltd., Calgary, will speak on the opportunities available in resource geography in the Pacific Rim region, in Cornett B112.

N. Gibbon, owner and operator of Redonda Sea Farms Ltd., Refuge Cove, will speak on mariculture opportunities in B.C., with emphasis on bivalves, in Elliott 061.

McPherson Scholarships receive funding boost

UVic is going to increase the value and number of prestigious T.S. McPherson Entrance Scholarships.

The Board of Governors (BOG), at its Oct. 15 meeting, agreed to transfer funds held since the sale of the Central Building in downtown Victoria to the T.S. McPherson Endowment Fund.

McPherson, UVic's most generous private benefactor, gave UVic one-half ownership of the building along with other financial gifts. During the years that UVic owned one-half of the building, it set aside part of the rental income for renovations.

When the building was sold, the renovation fund was no longer needed for its original purpose and it was decided that it should be held for a time, partly so that the success of the McPherson Entrance Scholarships could be evaluated.

Funds from the sale of the building were used to endow the McPherson Entrance Scholarships. Five scholarships of \$2,000 each, renewable for up to five years, are currently being provided by UVic.

According to a report at the BOG meeting, the scholarships have been very successful in bringing top students to UVic.

The Senate committee on awards has noted that the amounts offered by the scholarships has not kept pace with the rapid increase in residence and tuition fees or with the amounts offered by pres-

tigious scholarships at other universities in B.C.

The committee has recommended doubling the number of scholarships available to 10, and giving two of the awards a value of \$4,000 each. The value of the other eight awards would be increased from \$2,000 to \$2,500.

Our astronaut is coming here

Marc Garneau, Canada's first man in space, is coming to UVic, Nov. 19.

Garneau is the Canadian astronaut who spent eight days on the United States space shuttle Challenger which landed Oct. 13.

Garneau is being sent on a cross-Canada speaking tour following the successful mission. At UVic he will give two lectures.

At 4 p.m. he will speak in the University Centre Auditorium to about 1,000 students from School Districts 61, 62 and 63. At 8 p.m. university students and the public are invited to hear Garneau in the Auditorium.

Friday, October 19th.

Maltwood Art Museum and Gallery. *Joe Plaskett: A Retrospective from Local Collections.* Continues until Nov. 11. Gallery hours are 10 a.m. to 4 p.m. Monday to Friday, 12 noon to 4 p.m. Sunday, and during evening events at the University Centre Auditorium.

McPherson Library Gallery. *Recent Work by George Gaudette* (Visual Arts). Continues until Nov. 3. Library hours are 8 a.m. to 11 p.m. Monday to Thursday, 8 a.m. to 6 p.m. Friday, 10 a.m. to 6 p.m. Saturday, 10 a.m. to 10 p.m. Sunday.

UVic Fall Squash Tourney. Continues until Oct. 21. MCKI SQUASH COURTS.

12:30 p.m. Fridaymusic. Free noonhour recital featuring School of Music students. MUSIC BUILDING, RECITAL HALL.

1:30 p.m. The Dept. of Slavonic Studies presents Dr. Rudolf Neuhauser, University of Klagenfurt, Austria, speaking on "Aspects of Soviet Prose of the 60's and 70's." CLER A106.

1:45 p.m. Oral Exam. Mahesh Kumar Pachauri, M.A. Candidate in Geography, will defend his thesis entitled: "Suburbanization and Demographic Changes in the Delhi Fringe Area, 1951-71." CORN B145.

2:30 p.m. Seminar presented by the Dept. of Physics. Dr. Andrew D. Booth, Institute of Ocean Sciences, will speak on "History of Science." ELLI 061.

3:30 p.m. Faculty of Arts and Science meets. ELLI 167.

7:15 p.m. Cinecenta films. *This is Spinal Tap*. Admission charge. SUB Theatre.

9:15 p.m. University of Victoria Wind Symphony—Jesse Read, conductor. "British Band Gems"—a concert of music in the British Band Tradition. No admission charge. University Centre Auditorium.

Saturday, October 20th.

7:00 p.m. Cinecenta films. *Scarface*. Admission charge. SUB Theatre.

9:30 p.m. Sunday, October 21st. 1:00 p.m. Weekly Sunday matinees presented by UVic Daycare Services. 3:00 p.m. *The Shaggy D.A.* Tickets are \$1.50 for Children and Students; \$2.50 general admission. SUB Theatre.

2:00 p.m. The Four Seasons Musical Theatre presents *Monster Madness*. Tickets available at the door. University Centre Auditorium.

7:15 p.m. Cinecenta films. *Entre Nous* (France 1983). Subtitles. Admission charge. SUB Theatre.

9:15 p.m. Monday, October 22nd. 12:30 p.m. *Catharine and Petruchio* by David Garrick—the Theatre Department's first of two lunchtime plays this Fall. Directed by Dan Gill. Continues daily until Oct. 26. Tickets are \$1. Chief Dan George Theatre, PHOENIX BUILDING.

7:15 p.m. Cinecenta films. *Entre Nous* (France 1983). Subtitles. Admission charge. SUB Theatre.

9:15 p.m. The Physicians for Social Responsibility, the Greater Victoria Disarmament Group, and other local peace-oriented groups present Eugene Carroll, Rear-Admiral, USN (Ret.), and Deputy Director, Center for Defense Information, Washington, D.C., speaking on "Canada's Evolving Role in NATO." BEGB 159.

Tuesday, October 23rd.

12:30 p.m. The Dept. of English presents Prof. Sam Macey (English) speaking on "Literary Images of Progress: The Rise and Fall of a Western Ideal." CLER C109.

Wednesday, October 24th.

12:30 p.m. The Faculty of Fine Arts presents Michael Booth, Chairman, Dept. of Theatre, UVic, speaking on "What is Popular Theatre?" SUB Theatre.

7:15 p.m. Cinecenta films. *Cocktail Motel*. Admission charge. SUB Theatre.

8:00 p.m. Awards Recognition Ceremony. University Centre Auditorium.

Thursday, October 25th.

4:30 p.m. Second Language Learning and Teaching Workshop Series. The Dept. of Linguistics and University Extension present Bruce M. Watson, Head, Night School Division, Vancouver Community College, leading a session on "Contrastive Analysis." CLER A207.

7:00 p.m. *The Thursday Thing*—A Series of Readings by Writers arranged by the Creative Writing Dept.

8:00 p.m. Guest writer tonight: Mike Doyle (*Stonedancer* and *A Steady Hand*). No admission charge. CLER A311.

7:15 p.m. Cinecenta films. *Tootsie*. Admission charge. SUB Theatre.

Friday, October 26th.

9:15 p.m. The Dept. of Athletics and Recreational Services presents *The Alumni Oktoberfest Homecoming Weekend*, with all UVic varsity athletic teams taking on their respective alumni. Other weekend activities include a fun run, and free access to aerobic sessions, recreational swimming and open squash courts. For further details, contact Athletics and Recreation (721-8406), MCKI GYM.

12:30 p.m. Fridaymusic (Percussion). Free noonhour recital featuring School of Music students. MUSIC BUILDING, RECITAL HALL.

2:30 p.m. The Dept. of Anthropology presents Dr. Charles Tolman (Psychology) speaking on "Psychology and Human Evolution." CORN A229.

Seminar presented by the Dept. of Physics. Dr. Jim Gower, Institute of Ocean Sciences, will speak on "Imaging of Ocean Colour." ELLI 061.

3:30 p.m. Second Language Learning and Teaching Workshop Series. Bruce M. Watson (see above) will present a session on "Drawing in the Classroom and Picture Stories" based on his books. Sponsored by the Dept. of Linguistics and University Extension. CLER C112. Faculty of Graduate Studies meets. CORN B108.

Concert features trumpets

Traditional and contemporary works are programmed for a School of Music Faculty Recital by Louis Ranger, trumpet, and Bruce Vogt, piano, on Oct. 29, at 8 p.m. in the Recital Hall of the Music Building.

Each of the four works on the program will be performed on a different trumpet, which range in size from the standard B-flat instrument to the tiny piccolo trumpet in high B-flat.

The first selection, the *Concertino* of Viennese composer, Johann Albrechtsberger (a respected colleague of Haydn and Mozart), and a composition teacher of Beethoven), is an elegant work that demands continual high-register playing by the soloist. The *Sonata for Trumpet and Piano* (1945) is a seldom-performed work of the Pulitzer-Prize-winning American composer and renowned church musician, Leo Sowerby. *Solus* (1975), by Stan Fried-

Dear Faculty and Staff Members:

The Athletics and Recreation Department is proud to invite you and your family to the largest on campus event ever—the "Alumni Oktoberfest Homecoming Weekend" Friday, Oct. 26th through Sunday, Oct. 28.

We have an incredible slate of events: a banquet and dance Friday, hosted by CKVU's Chris Hebb and the "voice of the Vancouver Whitecaps", John McKeachie. Saturday, we offer an Oktoberfest beer garden from 11 a.m. to 7 p.m. in the Old Gym. From 11 a.m. on, all UVic varsity athletic teams will take on their respective alumni. In addition, we offer an 11 a.m. fun run, hosted by the Vikes' running club, FREE aerobic sessions (alumni receive first priority), recreational swimming and open squash courts.

Following the Women's and Men's basketball games (6:30 and 8 p.m. respectively), we will be hosting a dance in the Old Gym with "Duke and the Ducktails". Also, on Sunday from 9 to 11 a.m., our Vikes' coaches will be pleased to serve you breakfast for only \$2.

We realize that you may not have time for all of the events, but please, make use of our facilities, socialize at the beer garden and come out and support your university athletes. We have something to offer everyone, so bring your family and become a part of ours!

For further information and reservations, please contact Athletics and Recreation at 721-8406/2720.

Thank you for your consideration,

Howard Kelsey
Athletics Coordinator

Now that we've got your attention. Cindy Lowe, left, of Information Services and Edith Knott of the Alumni Association, hold a few of the objects coming in as donations to the Alumni Association's Great Garage Sale, Nov. 10 in the Old Gym. The university community has responded well to the call for donations for the sale, to raise money for a Student Crisis Fund. The Association has raised more than \$8,000 for emergency aid to students in the last two garage sales. The items above, including the painting in the background, will be on sale at bargain prices, Nov. 10. Knott says the Association can use many more donations which can be dropped off at the Alumni office in the Sedgewick Building. Larger items will be picked up if the donor calls the Alumni office at local 7635.
